Practice Exams

In Practice Exams students will have the opportunity to test themselves and verify that they understand the concepts and are ready to take the certification exam.

Summary

This section provides information to help prepare students to take the exam and to register for the exam.

Students will also have the opportunity of testing their mastery of the concepts presented in this course to reaffirm that they are ready for the certification exam. For example, all questions that apply to **Objective 100. Server Deployment** are grouped together and presented in practice exam *100. Server Deployment, All Questions*. Students will typically take about 30-90 minutes (there is no time limit) to complete each of the following practice exams.

100. Server Deployment, All Questions (83 questions)

200. Server Management, All Questions (43 questions)

300. Monitoring and Maintaining Servers, All Questions (31 questions)

400. Application and Data Provisioning, All Questions (26 questions)

500. High Availability, All Questions (29 questions)

Case Studies: All Questions (36 questions)

he *Certification Practice Exam* consists of 50 questions that are randomly selected from the above practice exams. ***Each time the Certification Practice Exam is accessed different questions may be presented.*** The Certification Practice Exam has a Total Time limit of 160 minutes -- just like the real certification exam. A passing score of 95% should verify that the student has mastered the concepts and is ready to take the real certification exam.
