Option2: I already have a cengagebrain account.

Login using your account.

Previous class books should display.

Enter the New book Access key in the box top right.

Complete steps 3 – 6 above.

After completing each lab, click the View Classes button, then Show labs by the class in order for the program to save your work. Make sure your lab grade is displaying. If not it did not save your work. Redo the lab. Make sure you click another lab or another item at the top to record your last lab or it will not save your work. DO NOT CLICK THE X CLOSE BUTTON.

Again, Click and view your grades to ensure labs submitted before closing.

From this point forward. You will login to <http://login.cengagebrain.com> with your 9100....@stc-smail.southeasterntech.edu username and your password you created. Your book will display. Click **LabConnection**

Open and all the assigned labs will be under the Labs tab. Make sure you click Class Overview, Show Labs to ensure your labs were saved. Then **logout each time**.

If you have multiple courses with LabConnections. You will need to login with the same cengagebrain username and password, activate and register each book with steps above for the already a user account steps.
