

**DHYG 1111 Clinical Dental Hygiene I LAB  
COURSE SYLLABUS  
Spring Semester 2021**

**COURSE INFORMATION**

Credit Hours/Minutes: 3 Semester Credit Hours and 6750 minutes  
Class Location: Vidalia Campus, Health Sciences Annex C, Dental Hygiene Clinic  
Class Meets: Thursday 8:00-12:00 and 1:00-5:00  
Course Reference Number (CRN): 40122

**INSTRUCTOR CONTACT INFORMATION**

Course Director: Melanie Bryson, RDH, BS  
Additional Clinical Instructor: Lori DeFore, RDH, BS, BTh  
Email Address: [Melanie Bryson \(mbryson@southeasterntech.edu\)](mailto:mbryson@southeasterntech.edu)  
Campus/Office Location: Vidalia Campus, Health Sciences Annex C, Office 910  
Office Hours: Monday 7:30-12:00, 2:30-5:30; Tuesday 7:30-7:45, 12:30-1:30, 3:30-5:30; Wednesday 7:30-7:45;  
Thursday 7:30-8:00, 5:00-5:30  
Phone: 912-538-3250  
Fax Number: 912-538-3278

**SOUTHEASTERN TECHNICAL COLLEGE'S (STC) CATALOG AND HANDBOOK**

Students are responsible for all policies and procedures and all other information included in Southeastern Technical College's [Catalog and Handbook \(https://catalog.southeasterntech.edu/college-catalog/downloads/current.pdf\)](https://catalog.southeasterntech.edu/college-catalog/downloads/current.pdf).

**REQUIRED TEXTS & DVD**

Fundamentals of Periodontal Instrumentation and Advanced Root Instrumentation. Enhanced Edition. Eighth edition. Gehrig. 2017. Jones and Bartlett Learning.  
Case Studies in Dental Hygiene. Third edition. Thomson. 2013. Pearson.  
Wilkins' Clinical Practice of the Dental Hygienist. Thirteenth Edition. Boyd, Mallonee, and Wyche. 2021. Jones and Bartlett Learning.  
Southeastern Technical College Dental Hygiene Clinic Manual  
Precision in Periodontal Instrumentation. Second edition. DVD. Leseica. 2010.

**REQUIRED SUPPLIES**

Black pen, colored pencils (red, blue, and green), highlighter, instrument kits, journal, clinical supplies, clipboard, Post-It notes, facial tissues, 3oz disposable paper cups, 5oz disposable paper cups, Sharpening Horse, 3-ring 2 inch binder

11-7-2020mb

**Students should not share login credentials with others and should change passwords periodically to maintain security.**

### **COURSE DESCRIPTION**

Continues the development of knowledge in patient care. Topics include: prevention, instrumentation, patient management, dental appliances, treatment planning, and applied techniques.

### **MAJOR COURSE COMPETENCIES (CC)**

1. Prevention
2. Instrumentation
3. Patient management
4. Dental appliances
5. Treatment planning
6. Applied techniques

### **PREREQUISITE**

DHYG 1050 Preclinical Dental Hygiene Lab

### **COREQUISITE**

DHYG 1110 Clinical Dental Hygiene I Lecture

### **GENERAL EDUCATION CORE COMPETENCIES (GC)**

Southeastern Technical College has identified the following general education core competencies that graduates will attain:

1. The ability to utilize standard written English.
2. The ability to solve practical mathematical problems.
3. The ability to read, analyze, and interpret information.

### **STUDENT REQUIREMENTS**

Students are responsible for policies and procedures in the STC E- Catalog, Dental Hygiene Handbook, and Dental Hygiene Clinic Manual. During the clinic session, the students are required to place all textbooks (unless otherwise stated by the instructor) and personal property in their designated lockers. Students should have the designated items used for the clinic procedures. No talking is allowed in the clinical area.

Students should be in clinical attire for all clinical lab sessions. Students are required to obtain any student study materials from the Course Materials Drive: M/Dental Hygiene/DHYG 1110/1111. Print any materials available to be used in this class. Students are advised to check their e-mails regularly for any additional information that is related to the class or the Dental Hygiene Program.

Additional Clinic/Lab time, outside of class, may be necessary in this course to be successful with fundamental skills utilized in the delivery of patient care and remediation. The clinic is available to students for the additional practice of skills but is not available for additional time for completion of patient care competencies/requirements. Students must seek permission from an instructor prior to utilizing additional clinical time for instrumentation skills practice. Students must sign in and out of the practice logbook.

11-7-2020mb

Students are expected to exhibit professional behavior at all times. Each student must show respect and concern for fellow students and for the course instructors/supervising dentists. Insubordination will not be tolerated, and disciplinary measures will be enacted. No cell phones or smart electronic devices are allowed to be turned on in the classroom, clinic, or locker area. If a student is observed in possession of his/her cell phone or smart electronic device during clinic time (7:00- 5:30), a critical incident will be issued. There are no exceptions to this rule and do not ask. If you have a personal situation going on, please advise your instructor and give your family the clinic receptionist's phone number for emergency contact. You should not have your cell phone or smart electronic device in the clinic! Personal phone calls must be handled after class.

Prior to the discussion of each chapter, demonstration, and practice in each class/clinic session, the student is expected to complete the following assignments to adequately prepare and utilize clinic laboratory time.

1. Go to M Drive/ Dental Hygiene/ DHYG 1111 to print any course materials and skill evaluations; maintain printed course materials on clipboard and bring to all clinic sessions; keep an extra copy of course materials in course notebook/Dental Hygiene Clinic Manual
2. Read the assigned chapters, Clinic Manual references, and applicable skill evaluations prior to each clinic session
3. View applicable videos assigned in the lesson plan, take notes, and maintain in a course notebook that contains the Dental Hygiene Clinic Manual
4. Prepare to actively participate in the clinic session activities, discussions, and skills
5. Complete a Caries Risk Assessment Form, Dental Hygiene Care Plan Form (each in the Clinic Manual), and Oral Hygiene Skill Evaluation Form (on M: Drive) with the Case Study Workbook Assignments and turn in all forms
6. Study and know the applicable DHYG 1110 lecture material
7. Check emails regularly for any additional information that is related to the class or Dental Hygiene Program

### **COVID-19 MASK REQUIREMENT**

Masks or face coverings must be worn at all times while on the campus of Southeastern Technical College. This measure is being implemented to reduce COVID-19 related health risks for everyone engaged in the educational process. Masks or face coverings must be worn over the nose and mouth, in accordance with the Centers for Disease Control and Prevention (CDC). A student's refusal to wear a mask or face covering will be considered a classroom disruption and the student may be asked to leave campus and/or receive further discipline.

### **COVID-19 SIGNS AND SYMPTOMS**

We encourage individuals to monitor for the signs and symptoms of COVID-19 prior to coming on campus.

If you have experienced the symptoms listed below or have a body temperature 100.4°F or higher, we encourage you to self-quarantine at home and contact a primary care physician's office, local urgent care facility, or health department for further direction. Please notify your instructor(s) by email and do not come on campus for any reason.

| <b>COVID-19 Key Symptoms</b> |
|------------------------------|
| Fever or felt feverish       |

| <b>COVID-19 Key Symptoms</b>   |
|--|
| Cough: new or worsening, not attributed to another health condition  |
| Shortness of breath, not attributed to another health condition  |
| New loss of taste or smell   |
| Chills; Repeated shaking with chills   |
| Sore throat, not attributed to another health condition  |
| Muscle pain, not attributed to another health condition or exercise  |
| Headache, not attributed to another health condition   |
| Diarrhea (unless due to known cause)   |
| <b>In the past 14 days, if you:</b>  |
| Have had close contact with or are caring for an individual diagnosed with COVID-19 at home (not in healthcare setting), please do not come on campus and contact your instructor (s). |

### **COVID-19 SELF-REPORTING REQUIREMENT**

Students, who test positive for COVID-19 or who have been exposed to a COVID-19 positive person, are required to self-report using the [COVID 19 Health Reporting Form](#). Report all positive cases of COVID-19 to your instructor, program director, and [Stephannie Waters](#), Exposure Control Coordinator, [swaters@southeasterntech.edu](mailto:swaters@southeasterntech.edu), 912-538-3195.

### **COVID-19 DAILY SCREENING REQUIREMENT**

Prior to entering the Health Sciences Annex- Building C, all dental hygiene students, faculty, and staff will complete a daily COVID-19 Screening and Temperature Check. Social distancing must be practiced throughout the building except during instruction of clinical skills and direct patient care. A KN-95 or N-95 mask and a face shield must be worn when social distancing is not feasible.

### **ATTENDANCE GUIDELINES**

Class attendance is a very important aspect of a student's success. Being absent from class prevents students from receiving the full benefit of a course and interrupts the learning process. Southeastern Technical College considers both tardiness and leaving early as types of absenteeism. Responsibility for class attendance rests with the student. Regular and punctual attendance at all scheduled classes is required for student success. Students will be expected to complete all work required by the instructor as described in the individual course syllabus. Students who stop attending class, but do not formally withdraw, may receive a final grade of "F" (Failing 0-59) and face financial aid repercussions in upcoming semesters.

### **ADDITIONAL ATTENDANCE GUIDELINES FOR HEALTH SCIENCES**

Requirements for instructional hours within Health Science programs reflect the rules of respective licensure boards and/or accrediting agencies. Therefore, these programs have stringent attendance policies. Each program's attendance policy is published in the program's handbook and/or syllabus which specify the number of allowable absences. All provisions for required makeup work in the classroom or clinical experiences are at the discretion of the instructor.

## **DENTAL HYGIENE CLINICAL ATTENDANCE GUIDELINES**

Clinic begins promptly at the scheduled time. Any clinical time missed must be made up. Makeup time is limited this semester. A student with an excused absence may receive an incomplete "I" in the course. The student will not be able to progress to the next semester until the clinical time is made up. If a student is more than 30 minutes late or leaves more than 30 minutes early, that clinical time must be made up.

The Commission on Dental Accreditation (CODA) mandates a designated number of clinical hours per semester for each student. Failure to achieve the mandated clinical hours will result in a final grade of "F" (Failing 0-59) in the course. Only excused absences will be made up due to the limited time available for makeup sessions. Each clinic session builds upon previous sessions. Therefore, missing one session could interfere with clinical learning. Excused absences will be evaluated on a case-by-case basis by the program director. Examples of excused absences would be a car accident on the way to clinic or unexpected hospitalization of the student. Please do not plan a vacation or schedule a routine medical/dental appointment during the designated clinical times. Unexcused absences will not be made up and will lead to a final grade of "F" in the course. A doctor's excuse will be required for any clinical absences related to illness experienced by the student.

Attendance is counted from the first scheduled class meeting of each semester. To receive credit for a course, a student must attend at least 90% of the scheduled instructional time. Time and/or work missed due to tardiness or absences must be made up at the convenience of the instructor. Any student attending less than the required scheduled instructional time (90%) may be dropped from the course as stated below in the Withdrawal Procedure.

Tardy means arriving after the scheduled time for instruction to begin. Early departure means leaving before the end of the scheduled time. Three (3) tardies or early departures equal one (1) absence for the course.

**For this class, which meets 1 session per week for 15 weeks, the maximum number of sessions a student may miss for attendance purposes is 2 sessions during the semester. Each session missed will have to be made up at the end of the semester.**

### **SPECIFIC ABSENCES**

Provisions for Instructional Time missed because of documented absences due to jury duty, military duty, court duty, or required job training will be made at the discretion of the instructor.

### **WITHDRAWAL PROCEDURE**

A student wishing to officially withdraw from a DHYG (Dental Hygiene) course(s) or all courses after the drop/add period and prior to the 65% point of the term in which the student is enrolled (date will be posted on the school calendar) must speak with a Career Counselor in Student Affairs and complete a Student Withdrawal Form. When the student completes the withdrawal form, a grade of "W" (Withdrawn) is assigned for the course(s). The student will receive a grade of "W" for all DHYG courses for the term in which the student is enrolled and the student will be unable to progress in the Dental Hygiene program.

Informing your instructor that you will not return to his/her course does not satisfy the approved withdrawal procedure outlined above.

Important – Student-initiated withdrawals from a course(s) are not allowed after the 65% point of the term. After the 65% point of the term, only instructors can withdraw students from a course(s).

11-7-2020mb

**Withdrawal Due to Attendance or Academic Deficiency After Drop/Add Period and Prior to 65% Point of Term-** Any student who is withdrawn from a DHYG course(s) due to attendance violation or academic deficiency after drop/add period and prior to the 65% point of the term will receive a grade of “W” for the course(s). If a student is withdrawn from a DHYG course(s) due to an attendance violation or academic deficiency after drop/add period and prior to the 65% point of the term, the student will receive a grade of “W” for all DHYG courses for the term in which the student is enrolled and the student will be unable to progress in the Dental Hygiene program.

**Withdrawal Due to Attendance After 65% Point of Term-**A student withdrawn from a DHYG course(s) due to attendance violation after the 65% point of the term will receive a grade of “WP” (Withdrawal Passing-average of 60 or higher) or a grade of “WF” (Withdrawal Failing-average of 59 or lower). The student will receive a grade of zero for all assignments missed beginning with the Last Date of Attendance (LDA) and the date the student exceeds the attendance procedure. If a student is withdrawn from a DHYG course(s) due to an attendance violation after the 65% point of the term, the student will receive a grade of “WP” (Withdrawal Passing-average of 60 or higher) or a grade of “WF” (Withdrawal Failing-average of 59 or lower) for all DHYG courses for the term in which the student is enrolled and the student will be unable to progress in the Dental Hygiene program.

**Withdrawal Due to Academic Deficiency After 65% Point of Term -** A student withdrawn from a DHYG course(s) due to academic deficiency after the 65% point of term will receive a grade of “WP” (Withdrawal Passing-average of 60 or higher) or a grade of “WF” (Withdrawal Failing-average of 59 or lower). If a student is withdrawn from a DHYG course (s) due to academic deficiency after the 65% point of term, the student will receive a grade of “WP” (Withdrawal Passing-average of 60 or higher) or a grade of “WF” (Withdrawal Failing-average of 59 or lower) for all DHYG courses for the term in which the student is enrolled and the student will be unable to progress in the Dental Hygiene program.

There is no refund for partial reduction of hours. Withdrawals may affect the students’ eligibility for financial aid for the current semester and in the future. Students must also speak with a representative of the Financial Aid Office to determine any financial penalties that may be assessed due to the withdrawal(s). A grade of “W” will count in attempted hour calculations for the purpose of Financial Aid.

## **STUDENTS WITH DISABILITIES**

Students with disabilities who believe that they may need accommodations in this class based on the impact of a disability are encouraged to contact the appropriate campus coordinator to request services.

**Swainsboro Campus:** Macy Gay [mgay@southeasterntech.edu](mailto:mgay@southeasterntech.edu), 478-289-2274, Building 1, Room 1210

**Vidalia Campus:** Helen Thomas [hthomas@southeasterntech.edu](mailto:hthomas@southeasterntech.edu), 912-538-3126, Building A, Room 165

## **PREGNANCY**

Southeastern Technical College does not discriminate on the basis of pregnancy. However, we can offer accommodations to students who are pregnant that need special consideration to successfully complete the course. If you think you will need accommodations due to pregnancy, please make arrangements with the appropriate campus coordinator.

**Swainsboro Campus:** Macy Gay [mgay@southeasterntech.edu](mailto:mgay@southeasterntech.edu), 478-289-2274, Building 1, Room 1210

**Vidalia Campus:** Helen Thomas [hthomas@southeasterntech.edu](mailto:hthomas@southeasterntech.edu), 912-538-3126, Building A, Room 165

It is strongly encouraged that requests for consideration be made **PRIOR** to delivery and early enough in the pregnancy to ensure that all the required documentation is secured before the absence occurs. Requests made after delivery **MAY NOT** be accommodated. The coordinator will contact your instructor to discuss accommodations when all required documentation has been received. The instructor will then discuss a plan with you to make up missed assignments.

### **ACADEMIC DISHONESTY POLICY**

The Southeastern Technical College Academic Dishonesty Policy states that all forms of academic dishonesty, including but not limited to cheating on tests, plagiarism, collusion, and falsification of information, will call for discipline. The policy can also be found in the Southeastern Technical College Catalog and Handbook.

### **PROCEDURE FOR ACADEMIC MISCONDUCT**

The procedure for dealing with academic misconduct and dishonesty is as follows:

#### **1. First Offense**

Student will be assigned a grade of "0" for the test or assignment. Instructor keeps a record in course/program files and notes as first offense. The instructor will notify the student's program advisor, academic dean, and the Registrar at the student's home campus. The Registrar will input the incident into Banner for tracking purposes.

#### **2. Second Offense**

Student is given a grade of "WF" (Withdrawn Failing) for the course in which offense occurs. The instructor will notify the student's program advisor, academic dean, and the Registrar at the student's home campus indicating a "WF" has been issued as a result of second offense. The Registrar will input the incident into Banner for tracking purposes.

#### **3. Third Offense**

Student is given a grade of "WF" for the course in which the offense occurs. The instructor will notify the student's program advisor, academic dean, and the Registrar at the student's home campus indicating a "WF" has been issued as a result of third offense. The Vice President for Student Affairs, or designee, will notify the student of suspension from college for a specified period of time. The Registrar will input the incident into Banner for tracking purposes.

### **STATEMENT OF NON-DISCRIMINATION**

The Technical College System of Georgia (TCSG) and its constituent Technical Colleges do not discriminate on the basis of race, color, creed, national or ethnic origin, gender, religion, disability, age, political affiliation or belief, genetic information, disabled veteran, veteran of the Vietnam Era, spouse of military member, or citizenship status (except in those special circumstances permitted or mandated by law). This nondiscrimination policy encompasses the operation of all technical college-administered programs, federally financed programs, educational programs and activities involving admissions, scholarships and loans, student life, and athletics. It also applies to the recruitment and employment of personnel and contracting for goods and services.

All work and campus environments shall be free from unlawful forms of discrimination, harassment and retaliation as outlined under Title IX of the Educational Amendments of 1972, Title VI and Title VII of the Civil Rights Act of 1964, as amended, the Age Discrimination in Employment Act of 1967, as amended, Executive Order 11246, as amended, the Vietnam Era Veterans Readjustment Act of 1974, as amended, Section 504 of

11-7-2020mb

the Rehabilitation Act of 1973, as amended, the Americans With Disabilities Act of 1990, as amended, the Equal Pay Act, Lilly Ledbetter Fair Pay Act of 2009, the Georgia Fair Employment Act of 1978, as amended, the Immigration Reform and Control Act of 1986, the Genetic Information Nondiscrimination Act of 2008, the Workforce Investment Act of 1998 and other related mandates under TCSG Policy, federal or state statutes.

The Technical College System and Technical Colleges shall promote the realization of equal opportunity through a positive continuing program of specific practices designed to ensure the full realization of equal opportunity.

The following individuals have been designated to handle inquiries regarding the nondiscrimination policies:

|  |   |
|--|---|
| <b>American With Disabilities Act (ADA)/Section 504 - Equity- Title IX (Students) – Office of Civil Rights (OCR) Compliance Officer</b>  | <b>Title VI - Title IX (Employees) – Equal Employment Opportunity Commission (EEOC) Officer</b>   |
| Helen Thomas, Special Needs Specialist<br>Vidalia Campus<br>3001 East 1 <sup>st</sup> Street, Vidalia<br>Office 165 Phone: 912-538-3126<br>Email: <a href="mailto:hthomas@southeasterntech.edu">Helen Thomas</a><br><a href="mailto:hthomas@southeasterntech.edu">hthomas@southeasterntech.edu</a> | Lanie Jonas, Director of Human Resources<br>Vidalia Campus<br>3001 East 1 <sup>st</sup> Street, Vidalia<br>Office 138B Phone: 912-538-3230<br>Email: <a href="mailto:ljonas@southeasterntech.edu">Lanie Jonas</a><br><a href="mailto:ljonas@southeasterntech.edu">ljonas@southeasterntech.edu</a> |

#### **ACCESSIBILITY STATEMENT**

Southeastern Technical College is committed to making course content accessible to individuals to comply with the requirements of Section 508 of the Rehabilitation Act of Americans with Disabilities Act (ADA). If you find a problem that prevents access, please contact the course instructor.

#### **GRIEVANCE PROCEDURES**

Grievance procedures can be found in the Catalog and Handbook located on Southeastern Technical College’s website.

#### **ACCESS TO TECHNOLOGY**

Students can now access Blackboard, Remote Lab Access, Student Email, Library Databases (Galileo), and BannerWeb via the mySTC portal or by clicking the Current Students link on the [Southeastern Technical College \(STC\) Website \(www.southeasterntech.edu\)](http://www.southeasterntech.edu).

#### **TECHNICAL COLLEGE SYSTEM OF GEORGIA (TCSG) GUARANTEE/WARRANTY STATEMENT**

*The Technical College System of Georgia guarantees employers that graduates of State Technical Colleges shall possess skills and knowledge as prescribed by State Curriculum Standards. Should any graduate employee within two years of graduation be deemed lacking in said skills, that student shall be retrained in any State Technical College at no charge for instructional costs to either the student or the employer.*

#### **INSTRUCTIONAL DELIVERY METHODS**

The clinical instructors will rotate at 10-minute intervals after a technique has been introduced to ensure each student has adequate hands on instruction in instrumentation techniques acquired in this lab. There will be exercises given to the student to strengthen grip and coordination in the fingers and hands. The students

11-7-2020mb

must practice these exercises. Students will practice skills on typodonts and student partners. Instructional videos and hands on demonstrations will also be utilized.

## **EVALUATION PROCEDURES**

### **Clinic Sessions**

The student must utilize all time in the lab. Idle time is prohibited. If a student does not utilize clinical time for skills development and practice of techniques in dental hygiene, a minimum of 1 point will be deducted each day from the final grade for *professional development infractions*. A list of *professional development infractions* can be obtained from the "M" Drive. The professional infractions sheet should be filled out and on the student's clinic clipboard at all times. The computers in the clinical area are to be used for no other purpose than dental hygiene instruction. There is a standing "NO TALKING/NO VISITING" rule while on the clinic floor. The clinic is a learning lab and the student is to be focused on the skill presently being acquired. If you have a question you should notify your instructor by extending the appropriate flag at your operatory. *Professional development infractions* will be given for failing to maintain a learning environment. The dental hygiene clinical lab will start at the designated time on the syllabus. This means each student should be in the clinic area *before* clinic time to be prepared and ready when the clinic begins. Students will set up the work area and be seated in the operator's position at the beginning of each clinical day. The instructor will not wait on a student to get ready for clinic. All personal items and things not needed for the lab should be stored away in the lockers. Infractions will result if student is not "set-up" and ready to begin clinic at the appropriate time. Time management and preparation are two key elements in any dental hygiene clinical lab. The student must have all materials that are required for that clinical lab. Additional Clinic/Lab time, outside of class, will be necessary in this course to be successful. The clinic is available to the student for practice of skills. Students are provided with a schedule of times allowed for practice. Students must also sign in and out of the practice log book.

Any clinical session missed must be made up at the end of semester in order to achieve the required number of clinical hours for CODA. It is the responsibility of the student to meet with the course director to make up a missed clinical session. All assigned clinical requirements must be finished at the completion of the required clinical hours. Failure to achieve these requirements will result in a grade of "F" regardless of the numeric course average. Only approved absences will be made up. Approved absences are at the discretion of the course director. See "specific absences" heading above for more details.

### **SKILL PREPARATION ASSESSMENT**

At the designated clinic sessions listed on the lesson plan, a skill participation assessment will take place. This time will be utilized to assess the preparation of each student prior to the clinic session. It is important that each student comes to the clinic session prepared with the foundational knowledge of the assigned topic(s) for the lesson. Being prepared for the clinic session means that the student has read the assigned chapter(s) in the required texts for clinic as well as the assigned skill evaluation(s) and completed any homework assignment(s) if applicable. Each student shall randomly draw one question. The question will cover some topic or portion of the course material that the student should have read and studied as outlined on the lesson plan. If a student demonstrates prior class preparation/participation by answering the question correctly, a session grade of 100 will be recorded. If a student fails to demonstrate prior class preparation/participation by answering the question incorrectly, a session grade of "0" will be recorded.

### **SKILL EVALUATIONS**

Clinical skill evaluations will be performed on the following topics: ultrasonic scalers, anterior and posterior

11-7-2020mb

sickle scalers, area specific Gracey curets, universal Gracey curet, power driven polish, fluoride varnish, cleaning removable prosthesis, oral hygiene instruction, and instrument sharpening. Students will perform the clinical skill evaluations on the typodont or clinical partner during the assigned clinical session. Students must achieve 100% competency on the clinical skill level of each skill to progress in the course or remediation will be required. Students must sign in the practice logbook before entering the clinic and sign out upon exiting the clinic. Students are encouraged to complete additional practice on their own. Reminder: students have signed the Dental Hygiene Practice policy and violation of this may result in dismissal from the dental hygiene program. Failing to maintain the learning environment during the practice session will result in an infraction or critical incident. Students must achieve 100% on each clinical skill evaluation on the first attempt or a remediation plan will be assigned and will be required to complete prior to the second/final attempt of the skill. The student will begin with a 30-point deduction if a second/final attempt is necessary. The remediation plan will be based on feedback from the instructor and student. The remediation plan will contain the skill deficiencies and the instructions for completion of the remediation. The remediation will be completed prior to the second and final attempt of the skill evaluation. Students will be allowed two attempts to reach 100% competency. The following list of attempts illustrates the grade that will be issued for the first and second/final attempts.

**First Attempt = 100 is the grade for 100% competency**

**Second/Final Attempt = 70 is the grade for 100% competency**

If a student fails to achieve 100% on the skill evaluation at the end of the second/final attempt, the student will be assigned a grade of "0" (zero) for the skill evaluation. The student will also be assigned an "F" for the final course grade, and the student will not be allowed to proceed in the dental hygiene program. It is mandatory to master one skill before progressing to the next skill in the clinic sessions. Self and peer assessments must be completed on each skill evaluation prior to the scheduled skill evaluation session. (Peer assessments will not be completed on skill evaluations due to social distancing guidelines during COVID-19.) The skill evaluations are posted on the M: drive under Clinic I skill evaluations of the DHYG 1111 folder. Students must be on time for all skill evaluations. Failure to be in assigned seat/operator at the start time of the class will result in inability to take the skill evaluation and a grade of "0" (zero) will be assigned. Failure to have a skill evaluation sheet completely filled out as specified to include self and peer evaluations with feedback will result in a failed attempt and the student will have to re-schedule to take the skill evaluation as the second/final attempt and begin with a 30-point deduction.

**\*\*Bottom Line= If you do not pass any skill evaluation on the first attempt with a grade of 100 or the second/final attempt with a grade of 70, you will be withdrawn from this course based on the 'Withdrawal Procedure' outlined in this course syllabus. You will be withdrawn from all DHYG courses for the term and you will not be able to progress in the Dental Hygiene Program.**

## **JOURNAL REQUIREMENTS**

The dental hygiene student will be required to maintain a detailed clinical journal throughout the semester. The journal will be a dated entry of each clinical session. It is hoped that the entries made into this journal will provide insight into your strengths and weaknesses as a dental hygienist and future employee. This self-assessment should help you in determining which skills you may need to focus on improving, while allowing you to gain a sense of accomplishment at tasks well done. Re-reading of your journal at intervals during your education should reveal the depth of knowledge you have gained and allow you to see the development of the clinical skills and critical thinking skills required to be an outstanding dental hygienist. Every day that you

11-7-2020mb

participate in a clinical activity, you should write an entry in your journal. Each journal entry should focus on your clinic experience. You may include your feelings about the clinical experience. If you felt a sense of accomplishment at learning a new skill, that feeling may be recorded. If you felt a sense of frustration in trying to learn a new skill, that may be recorded as well. The purpose of the journal is to give you a written record of your clinical experiences and professional and personal growth as a dental hygienist. At the bottom of each page, draw a line, and then write a one sentence summary stating what you learned, or what skill you improved on that day. It may be a clinical skill, an interpersonal skill, a new piece of knowledge or understanding--any skill that would make you a better dental hygienist. The journal will assist the clinical instructors in knowing the areas to further assist the student with. The student will bring the journal to each clinical session and have it available (place on top of cabinet) for the instructor to view before or during clinic. Entries for each clinical session should be made at the end of each clinical session. Then, the student will turn in the journal prior to dismissal of the session to the appropriate instructor for review. The journals will be given back to the students on the following day. There will be a 1-point deduction from the student's final course grade for each failure to document the clinical day. The student will have a total of 1 detailed entry in the journal weekly, totaling 15 detailed entries at the end of the semester.

### **MAKEUP GUIDELINES (TESTS, QUIZZES, HOMEWORK, PROJECTS, ETC.)**

Any clinical session missed must be made up at the end of semester in order to achieve the required number of clinical hours for CODA. Failure to do so may result in program dismissal. It is the responsibility of the student to get with the course director to make arrangements to makeup a missed clinical session. All assigned clinical requirements must be finished at the completion of the required clinical hours. Failure to achieve these requirements will result in program dismissal. **Only excused absences will be made up.** Excused absences are at the discretion of the program director. See "specific absences" heading above for more details.

### **HOMEWORK/ASSIGNMENTS**

Homework/assignments will be assigned throughout the semester. Failure to complete homework assignments will result in one point being deducted from the final course grade for each assignment not completed by the deadline specified. No exceptions. Late or incomplete assignments still need to be completed and turned in for instructor review and feedback. If you are going to be absent, you should deliver your homework/assignment to your instructor prior to the deadline to ensure credit.

### **INSTRUMENTATION PRACTICUM PART II– GRACEYS/UNIVERSALS/SICKLES**

This is a Pass or Fail Evaluation that will be evaluated by a minimum of two dental hygiene faculty. The student must pass at 100% competency OR receive a "0" (zero) as the final grade. If the dental hygiene student fails the Lab Final, the student will fail the course, regardless of the final numerical course grade. No additional attempts are allowed on the Instrumentation Practicum Part II– Graceys/Universal/Sickles. If the student does not score 100% competency on the lab final, the student will receive a "0" (zero) for the final, and a final course grade of "F" and will not be allowed to progress in the dental hygiene program. A grade of "0" (zero) will be assigned for the missed Lab Final, and the student will be assigned a final course grade of "F" and will not be allowed to proceed in the dental hygiene program.

### **TWO COMPLETED PATIENTS**

Each student is required to complete 2 patients at the end of the semester as outlined in the lesson plan. The students will be evaluated on patient care. Assessment and debridement scores will be calculated as part of the course grade. In order for a patient to count as a completed patient, the assessment grade must be 70 or

11-7-2020mb

above and the debridement grade must be 70 or above. If a student fails to pass the assessment and/or the debridement of the first or second patient, the student will need to complete a third and final patient. If a student fails to pass the assessment and/or the debridement of the third patient, the student will be dismissed from the program. If a student fails the assessment and/or debridement of the first and second patient, the student will be dismissed from the program. The student will not be allowed to complete a third patient.

**\*\*Bottom Line= If you do not complete 2 required patients, you will receive an “F” in this course regardless of your numerical course grade. If you receive an “F” in any DHYG course, you will not be allowed to progress in the dental hygiene program.**

**GRADING POLICY**

| Evaluation Item                                     | Percentage |
|---|------------|
| Skill Evaluations (averaged together)               | 20         |
| Instrumentation Practicum II                        | 40         |
| Assessment Clinical Evaluation (averaged together)  | 10         |
| Debridement Clinical Evaluation (averaged together) | 10         |
| Skill Preparation Assessment (averaged together)    | 20         |

**CALCULATION OF FINAL COURSE GRADE**

| Evaluation Item  | Grade | (X) % | Points |
|--|-------|-------|--------|
| Ultrasonic Scalers Skill Evaluation                    |       |       |        |
| Anterior and Posterior Sickle Scalers Skill Evaluation |       |       |        |
| Area Specific Gracey Curets Skill Evaluation           |       |       |        |
| Universal Gracey Curet Skill Evaluation                |       |       |        |
| Power Driven Polish Skill Evaluation                   |       |       |        |
| Fluoride Varnish Skill Evaluation                      |       |       |        |
| Cleaning Removable Prosthesis Skill Evaluation         |       |       |        |
| Oral Hygiene Instruction Skill Evaluation              |       |       |        |
| Instrument Sharpening Skill Evaluation                 |       |       |        |
| Skill Evaluations (1-9 averaged together)              |       | .20   |        |
| Instrumentation Practicum II                           |       | .40   |        |
| Assessment Clinical Evaluation 1                       |       |       |        |
| Assessment Clinical Evaluation 2                       |       |       |        |
| Assessment Clinical Evaluations (averaged together)    |       | .10   |        |
| Debridement Clinical Evaluation 1                      |       |       |        |
| Debridement Clinical Evaluation 2                      |       |       |        |
| Debridement Clinical Evaluations (averaged together)   |       | .10   |        |
| Skill Preparation Assessment 1                         |       |       |        |
| Skill Preparation Assessment 2                         |       |       |        |
| Skill Preparation Assessment 3                         |       |       |        |
| Skill Preparation Assessment 4                         |       |       |        |
| Skill Preparation Assessment 5                         |       |       |        |
| Skill Preparation Assessment 6                         |       |       |        |
| Skill Preparation Assessment 7                         |       |       |        |

|  |  |     |  |
|--|--|-----|--|
| Skill Preparation Assessment 8                           |  |     |  |
| Skill Preparation Assessments (1-8 averaged together)    |  | .20 |  |
| <b>Point Deductions for late/incomplete assignments-</b> |  |     |  |
| <b>Subtotal</b>  |  |     |  |
| <b>Final Course Grade</b>                                |  |     |  |

**GRADING SCALE**

| Letter Grade | Range  |
|--------------|--------|
| A            | 90-100 |
| B            | 80-89  |
| C            | 70-79  |
| D            | 60-69  |
| F            | 0-59   |

**DENTAL HYGIENE PROGRAM GOALS**

- A. To provide comprehensive preparation of competent individuals in the arts and sciences pertinent to the discipline of dental hygiene.
- B. To provide comprehensive preparation of competent individuals in the clinical and laboratory experiences, which are necessary to develop skills in rendering professional dental hygiene patient care to the public.
- C. To provide an environment that will foster respect for the Dental Hygiene Professional Code of Ethics and conduct and assure recognition and acceptance of the responsibilities of the profession of dental hygiene.
- D. To prepare the graduates of the basic two-year curriculum in dental hygiene to fulfill the dental hygienist's role in community oral health services.
- E. To teach students to conduct critical reviews of current literature as a means of research and life-long learning.
- F. To teach students to seek life-long learning through continuing education courses on the latest products and developments in dentistry and medicine.

**LEARNING OBJECTIVES WILKINS' AND FUNDAMENTALS****Clinical Technique**

1. Demonstrate the correct exploratory technique using the 11/12-type explorer in all areas of the mouth. (B, C, D)
2. Demonstrate the correct exploratory technique for the XP23 Shepherd's Hook explorer and the 11/12-type explorer. (B, C, D)
3. Demonstrate the correct charting of possible carious lesions. (B, C, D)
4. Demonstrate the correct charting of supragingival and subgingival calculus. (B, C, D)
5. Demonstrate the correct probing technique. (B, C, D)
6. Demonstrate instrument strokes on a typodont. (B, C, D)
7. Demonstrate the correct working stroke in the mouth with explorers and probe. (B, C, D)
8. Demonstrate correct technique in all areas of the mouth using the subgingival explorer. (B, C, D)
9. Demonstrate correct tooth brushing and flossing techniques. (B, C, D)
10. Demonstrate the proper use of interdental cleaner techniques. (B, C, D)
11. Demonstrate the correct oral irrigation techniques. (B, C, D)
12. Demonstrate the correct technique for mouth rinses. (B, C, D)
13. Demonstrate the correct technique for the use of disclosing solution on a patient. (B, C, D)

11-7-2020mb

14. Demonstrate the proper use of the prophylaxis angle. (B, C, D)
15. Demonstrate the proper application of tray fluoride. (B, C, D)
16. Demonstrate the proper application of varnish fluoride. (B, C, D)
17. Demonstrate the proper technique to care for removable prosthesis. (B, C, D)
18. Demonstrate the proper technique for oral hygiene care for the orthodontic patient. (B, C, D)
19. Demonstrate correct use of anterior and posterior sickle scalers. (B, C, D)
20. Demonstrate correct use of area specific curets in anterior and posterior areas of the mouth. (B, C, D)
21. Demonstrate correct use of universal curet in anterior and posterior areas of the mouth. (B, C, D)
22. Demonstrate self-assessment skills by documenting strengths and weaknesses in a clinical communication journal. (A, B, C, D, E, F)
23. Discuss the role of electronically powered instrumentation in periodontal debridement. (A, B, D)
24. Discuss the history and technological advances of electronically powered instrumentation. (A, B, D)
25. Compare and contrast the advantages and limitations of electronically powered instrumentation. (A, B, D)
26. Discuss the use of electronically powered instrumentation in the dental hygiene treatment plan to facilitate and enhance periodontal debridement. (B, C, D)
27. Compare and contrast sonic and ultrasonic devices. (B, C, D)
28. Compare and contrast automatically and manually tuned ultrasonic devices. (B, C, D)
29. Compare and contrast standard and slim instrument tip design. (B, C, D)
30. Identify pretreatment considerations before the initiation of electronically powered instrumentation. (B, C, D)
31. Discuss medical and dental contraindications for electronically powered instrumentation. (B, C, D)
32. Discuss criteria for the selection of instrument tips. (B, C, D)
33. Explain proper infection control for electronically powered instrumentation. (B, C, D)
34. Prepare an electronically powered device for use. (B, C, D)
35. Select appropriate instrument tips for the patient case. (B, C, D)
36. Demonstrate correct technique for use of an ultrasonic device, including treatment room and patient preparation, patient/clinician positioning, armamentarium selection/set-up, cord management, grasp, fulcrum, tip activation, tip insertion, stroke, and fluid evacuation. (B, C, D)
37. Demonstrate the correct amount of stroke pressure and different strokes used with an electronically powered instrument. (B, C, D)
38. Properly maintain electronically powered instruments. (B, C, D)
39. List the benefits of using instruments with sharp cutting edges for periodontal instrumentation. (B, C, D)
40. Define and differentiate the terms "sharp cutting edge" and "dull cutting edge". (B, C, D)
41. Demonstrate two methods for determining if a cutting edge is sharp. (B, C, D)
42. Describe important design characteristics to be maintained when sickle scalers, universal and area-specific curets are sharpened. (B, C, D)
43. Differentiate the following sharpening stones according to grain, recommended use, and preferred lubricant: composition synthetic stone, India stone, Arkansas stone, and ceramic stone. (B, C, D)
44. Demonstrate the correct care of a sharpening stone. (B, C, D)
45. Describe common sharpening errors. (B, C, D)
46. Value the practice of sharpening at the first sign of dullness. (B, C, D)
47. Compare and contrast the moving stone and the moving instrument techniques for instrument sharpening. (B, C, D)
48. Describe and demonstrate the proper relationship of the instrument's working-end to the sharpening stone. (B, C, D)

11-7-2020mb

49. Demonstrate the correct grasp and finger rest for both the instrument and the sharpening stone when using the moving stone technique. (B, C, D)
50. Describe and demonstrate the sharpening procedure for sickle scalers, universal curets, and area-specific curets using the moving stone technique. (B, C, D)
51. Describe and demonstrate the sharpening procedure for sickle scalers, universal curets, and area-specific curets using the moving instrument technique. (B, C, D)
52. Sharpen a dull sickle scaler, universal curet, and area-specific curet to produce a sharp, fine cutting edge while preserving all the original design characteristics of the working-ends. (B, C, D)
53. Demonstrate the procedure for using a plastic sharpening stick to determine if the entire length of a cutting edge is sharp. (B, C, D)

### **Clinical Practice**

1. Demonstrate proper assessment of vital signs with use of the automated and manual blood pressure cuffs. (B, C, D)
2. Demonstrate a working knowledge of the dental hygiene clinic manual. (B, C, D)
3. Follow sequence of care during patient care. (B, C, D)
4. Demonstrate proper protocol and response for simulated medical emergency drills. (B, C, D)
5. Follow infection control procedures for patient care. (B, C, D)
6. Maintain proper ergonomics during patient care. (B, C, D)
7. Maintain infection control during patient care with use of over gloves for necessary documentation. (B, C, D)
8. Present oral hygiene home care instruction based on individual need. (B, C, D)
9. Demonstrate proper use of dental hygiene instruments: mirror, probe, explorers, area specific and universal curets, anterior and posterior sickles. (B, C, D)
10. Demonstrate correct clinic protocol for patient care. (B, C, D)
11. Demonstrate correct use of clinical paperwork to include medical history, extra and intra oral exam, periodontal and dental charting, plaque and calculus charting, dental hygiene care plan, progress notes, routing forms, screening forms, assessment and debridement grade sheets, and competency forms necessary for all patient interaction. (B, C, D)
12. Demonstrate proper patient management techniques. (B, C, D)
13. Demonstrate appropriate dental hygiene care with pediatric, class I, and class II patients. (B, C, D)
14. Demonstrate organizational and time management skills in the clinic operatory. (B, C, D)
15. Demonstrate proper communication skills with patients. (B, C, D)
16. Demonstrate and manage the appropriate duties assigned for the clinical assistant. (B, C, D)
17. Maintain equipment and medical emergency report and incidence log books. (B, C, D)
18. Schedule patients for appointments and utilize proper phone etiquette. (B, C, D)
19. Manage recall list and keep patients on appropriate recall. (B, C, D)
20. Employ computer skills necessary to document all patient interaction into Eaglesoft dental software. (B, C, D)
21. Value sharp instruments and the practice of sharpening at the first sign of dullness or after each use of an instrument. (B, C, D)

## DHYG 1111 Clinical Dental Hygiene I Lab

### Spring Semester 2020 Lesson Plan

| Date/Week               | Chapter/Lesson  | Content   | Assignments & Tests<br>Due Dates   | Competency<br>Area      |
