

PARAMEDICINE
EMSP 2320 – Therapeutic Modalities of Medical Care
Course Syllabus
Summer Semester 2023(202316)
On Campus Course With 50% of Less of Instruction Online

COURSE INFORMATION

Credit Hours/Minutes: 5/4500

Campus/Class Location: Online

Class Meets: Via Internet for 6 weeks

Course Reference Number (CRN): 60102

Preferred Method of Contact: The preferred method of contact for the instructor is by office phone. If there is no answer, please call the cell phone number provided below.

INSTRUCTOR CONTACT INFORMATION

Instructor Name: Mike Young

Email Address: [Mike Young_myoung@southeasterntech.edu](mailto:Mike.Young_myoung@southeasterntech.edu)

Campus/Office Location: Health Science Annex West Room 107

Office Hours: By appointment (Due to shift friendly schedule)

Phone: 912-538-1279 (office) 229-315-9483 (cell)

Fax Number: 912-538-3259

Tutoring Hours (if applicable): By Appointment

This course requires students to complete a portion of the required contact hours by attending classes on campus while completing the remaining portion online as shown on the Lesson Plan.

SOUTHEASTERN TECHNICAL COLLEGE (STC) CATALOG AND HANDBOOK

Students are responsible for all policies and procedures and all other information included in Southeastern Technical College's [Catalog and Handbook](http://www.southeasterntech.edu/student-affairs/catalog-handbook.php) (<http://www.southeasterntech.edu/student-affairs/catalog-handbook.php>).

REQUIRED TEXT

Paramedic Care: Principles & Practice, Introduction to Paramedicine, 5th Edition Volume 3, by Bryan E. Bledsoe, Robert S. Porter, Richard A. Cherry, Publish Date: April 26, 2016 by Prentice Hall. ISBN-10: 0-13-453873-0.

REQUIRED SUPPLIES & SOFTWARE

Pencils, 3-ring binder, Paper, computer and internet access.

Note: Although students can use their smart phones and tablets to access their online course(s), exams, discussions, assignments, and other graded activities should be performed on a personal computer. Neither Blackboard nor Georgia Virtual Technical Connection (GVTC) provide technical support for issues relating to the use of a smart phone or tablet so students are advised to not rely on these devices to take an online course.

Students should not share login credentials with others and should change passwords periodically to maintain security.

COURSE DESCRIPTION

This course will enable the student to integrate assessment findings with principles of epidemiology and pathophysiology to formulate a field impression and implement a comprehensive treatment/disposition plan for a patient experiencing a medical emergency. Topics include: Medical Overview; Neurology; Abdominal and Gastrointestinal Disorders; Immunology; Infectious Disease; Endocrine Disorders; Psychiatric; Toxicology; Respiratory; Hematology; Genitourinary/Renal; Non-Traumatic Musculoskeletal Disorders; Diseases of the Eyes, Ears, Nose, and Throat; and Assessment of Medical Emergencies.

MAJOR COURSE COMPETENCIES

1. Medical Overview
2. Neurology
3. Abdominal and Gastrointestinal Disorders
4. Immunology
5. Infectious Disease
6. Endocrine Disorders
7. Psychiatric
8. Toxicology
9. Respiratory
10. Hematology
11. Genitourinary/Renal
12. Non-Traumatic Musculoskeletal Disorders
13. Diseases of the Eyes, Ears, Nose, & Throat
14. Assessment of Medical Emergencies

PROGRAM GOAL

“To prepare competent entry-level Paramedics in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains with or without exit points at the Advanced Emergency Medical Technician and/or Emergency Medical Technician, and/or Emergency Medical Responder levels.”

PREREQUISITE(S)

Program Admission

COURSE OUTLINE

Medical Overview

Order	Description	Learning Domain	Level of Learning
1	Integrate the pathophysiology, assessment, and management of medical complaints to include transport mode and destination decisions.	Cognitive	Synthesis
2	Use the pathophysiology, assessment, and management of medical complaints to assure the appropriate transport mode and destination decision.	Psychomotor	Mechanism

Neurology

Order	Description	Learning Domain	Level of Learning
1	Integrate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of the following: stroke/intracranial hemorrhage/transient ischemic attack; seizure; status epilepticus; and headache.	Cognitive	Synthesis
2	Articulate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of the following: dementia; neoplasms; demyelinating disorders; Parkinson's disease; cranial nerve disorders; movement disorders; neurologic inflammation/infection; spinal cord compression; hydrocephalus; and Wernicke's encephalopathy.	Cognitive	Application
3	Apply the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management to the assessment and management of patients with neurologic complaints.	Psychomotor	Mechanism
4	Appreciate the need to apply the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management to the assessment and management of patients with neurologic complaints.	Affective	Characterization

Abdominal and Gastrointestinal Disorders

Order	Description	Learning Domain	Level of Learning
1	Integrate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and	Cognitive	Synthesis

Order	Description	Learning Domain	Level of Learning
	management of the following: acute and chronic gastrointestinal hemorrhage; liver disorders; peritonitis; and ulcerative diseases.		
2	Articulate the anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of the following: irritable bowel syndrome; inflammatory disorders; pancreatitis; bowel obstruction; hernias; infectious disorders; gall bladder and biliary tract disorders.	Cognitive	Application
3	Discuss the anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of the following: rectal abscess; rectal foreign body obstruction; and mesenteric ischemia.	Cognitive	Comprehension
4	Apply the anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, and prognosis to appropriately assess and manage various patients with an abdominal or gastrointestinal disorder.	Psychomotor	Mechanism
5	Appreciate the need to apply the anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, and prognosis to appropriately assess and manage various patients with an abdominal or gastrointestinal disorder.	Affective	Characterization

Immunology

Order	Description	Learning Domain	Level of Learning
1	Integrate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of common or major immune system disorders and/or emergencies, including the following: hypersensitivity; allergic and anaphylactic reactions; and anaphylactoid reactions.	Cognitive	Synthesis
2	Relate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of common or major immune system disorders and/or emergencies, including the following: collagen vascular disease and transplant related problems.	Cognitive	Application
3	Apply the assessment findings, along with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management to the treatment of various patients experiencing common or major immune system disorders and/or emergencies.	Psychomotor	Mechanism

Order	Description	Learning Domain	Level of Learning
4	Appreciate the need to apply the assessment findings, along with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management to the treatment of various patients experiencing common or major immune system disorders and/or emergencies.	Affective	Characterization

Infectious Disease

Order	Description	Learning Domain	Level of Learning
1	Promote the appropriate use of body substance isolation precautions.	Affective	Characterization
2	Promote the decontamination of equipment after treating a patient.	Affective	Characterization
3	Integrate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, reporting requirements, prognosis, and management of the following: HIV-related disease; hepatitis; pneumonia; and meningococcal meningitis.	Cognitive	Synthesis
4	Articulate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, reporting requirements, prognosis, and management of the following: tuberculosis; tetanus; viral diseases; sexually transmitted diseases; gastroenteritis; fungal infections; rabies; scabies and lice; Lyme disease; Rocky Mountain Spotted Fever; and antibiotic resistant infections.	Cognitive	Application
5	Use the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, reporting requirements, prognosis, and management for the treatment of various patients with infectious diseases.	Psychomotor	Mechanism
6	Appreciate the use of assessment findings, principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, reporting requirements, prognosis, and management for the treatment of various patients with infectious diseases.	Affective	Characterization

Endocrine Disorders

Order	Description	Learning Domain	Level of Learning
1	Interpret the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of diabetic emergencies and diabetes.	Cognitive	Evaluation

Order	Description	Learning Domain	Level of Learning
2	Articulate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of the following: adrenal disease; pituitary and thyroid disorders.	Cognitive	Application
3	Use the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients experiencing an endocrine disorder.	Psychomotor	Mechanism
4	Appreciate the use of assessment findings, principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients experiencing an endocrine disorder.	Affective	Characterization

Psychiatric

Order	Description	Learning Domain	Level of Learning
1	Integrate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of acute psychosis and agitated delirium.	Cognitive	Synthesis
2	Articulate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of the following: cognitive disorders; thought disorders; mood disorders; neurotic disorders; substance-related disorders/addictive behavior; somatoform disorders; factitious disorders; personality disorders; patterns of violence/ abuse/neglect; and organic psychoses.	Cognitive	Application
3	Use the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients experiencing a psychiatric disorder.	Psychomotor	Mechanism
4	Appreciate the use of assessment findings, principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients experiencing a psychiatric disorder.	Affective	Characterization

Toxicology

Order	Description	Learning Domain	Level of Learning
1	Integrate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of the following	Cognitive	Synthesis

Order	Description	Learning Domain	Level of Learning
	toxidromes and poisonings: cholinergics; anticholinergics; sympathomimetics; sedative/hypnotics; opiates; alcohol intoxication and withdrawal; over-the-counter and prescription medications; carbon monoxide; illegal drugs; and herbal preparations.		
2	Use the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients experiencing a toxicological emergency.	Psychomotor	Mechanism
3	Appreciate the use of assessment findings, principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients experiencing a toxicological emergency.	Affective	Characterization

Respiratory

Order	Description	Learning Domain	Level of Learning
1	Integrate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of the following: acute upper airway infections; spontaneous pneumothorax; obstructive/restrictive lung diseases; and pulmonary infections.	Cognitive	Synthesis
2	Articulate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of the following: neoplasm; pertussis; and cystic fibrosis.	Cognitive	Application
3	Use the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients experiencing a respiratory emergency.	Psychomotor	Mechanism
4	Appreciate the use of assessment findings, principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients experiencing a respiratory emergency.	Affective	Characterization

Hematology

Order	Description	Learning Domain	Level of Learning
1	Integrate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and	Cognitive	Synthesis

Order	Description	Learning Domain	Level of Learning
	management of common or major hematological diseases and/or emergencies, including sickle cell disease.		
2	Articulate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of the following: blood transfusion complications; hemostatic disorders; lymphomas; red blood cell disorders; white blood cell disorders; and coagulopathies.	Cognitive	Application
3	Use the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients experiencing a hematologic complaint.	Psychomotor	Mechanism
4	Appreciate the use of assessment findings, principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients experiencing a hematologic complaint.	Affective	Characterization

Genitourinary/Renal

Order	Description	Learning Domain	Level of Learning
1	Integrate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of the following: complications of acute renal failure, chronic renal failure, and dialysis; and renal calculi.	Cognitive	Synthesis
2	Articulate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of the following: acid base disturbances; fluid and electrolyte disturbances; infections; and male genital tract conditions.	Cognitive	Application
3	Use the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients with a genitourinary/renal complaint.	Psychomotor	Mechanism
4	Appreciate the use of assessment findings, principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients with a genitourinary/renal complaint.	Affective	Characterization
5	Promote empathy for patients experiencing a genitourinary/renal emergency.	Affective	Characterization

Non-Traumatic Musculoskeletal Disorders

Order	Description	Learning Domain	Level of Learning
1	Articulate the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of common or major non-traumatic musculoskeletal disorders, including: disorders of the spine; joint abnormalities; muscle abnormalities; and overuse syndromes.	Cognitive	Application
2	Use the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients experiencing a non-traumatic musculoskeletal disorder.	Psychomotor	Mechanism
3	Appreciate the use of assessment findings, principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for the treatment of various patients experiencing a non-traumatic musculoskeletal disorder.	Affective	Characterization

Diseases of the Eyes, Ears, Nose, and Throat

Order	Description	Learning Domain	Level of Learning
1	Articulate the assessment findings with the knowledge of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management of common or major diseases of the eyes, ears, nose, and throat, including a nose bleed.	Cognitive	Application
2	Use the assessment findings with the principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for various patients experiencing a disease of the eyes, ears, nose, or throat including a nose bleed.	Psychomotor	Mechanism
3	Appreciate the use of assessment findings, principles of anatomy, physiology, epidemiology, pathophysiology, psychosocial impact, presentations, prognosis, and management for various patients experiencing a disease of the eyes, ears, nose, or throat including a nose bleed.	Affective	Characterization

Assessment of Medical Emergencies

Order	Description	Learning Domain	Level of Learning
1	Integrate assessment findings with principles of epidemiology and pathophysiology to formulate a field impression and implement a comprehensive treatment/disposition plan for a patient with a medical complaint.	Psychomotor	Complex Response

Order	Description	Learning Domain	Level of Learning
2	Implement the assessment and management of the following types of complaints: neurological; abdominal/gastrointestinal; immunologic; infectious diseases; endocrine disorders; psychiatric; toxicological; respiratory; hematologic; genitourinary/renal; non-traumatic musculoskeletal disorders; and diseases of the eyes, ears, nose, and throat.	Psychomotor	Mechanism
3	Appreciate the critical nature of accurate field impressions for patients with various medical complaints.	Affective	Characterization

GENERAL EDUCATION CORE COMPETENCIES

STC has identified the following general education core competencies that graduates will attain:

1. The ability to utilize standard written English.
2. The ability to solve practical mathematical problems.
3. The ability to read, analyze, and interpret information.

STUDENT REQUIREMENTS (ONLINE)

Students are expected to complete all work shown on the attached assignment sheet. Students are also expected to complete all tests and comprehensive problems on the dates specified on the attached calendar. Students are responsible for policies and procedures included in the STC Catalog. **Paramedicine program students must earn a minimum grade of C in this course to advance to EMSP 2340.**

Students must maintain a **70%** or higher average on Chapter exams to sit for the Final exam.

Students must also maintain an **80%** or higher average on all Pretest, Homework, and Post-test assignments in order to sit for the Final Exam.

Students, who are more than 15 minutes late on exam dates, will not be allowed to take the exam once the exam has started. These students must schedule a time to make up the exam or a zero will be given for the exam. This time will be other than normal class hours, must be prior to the next class, and will be at the instructor's convenience. If the student is less than 15 minutes late, and the exam has started, the student may begin the exam, but he/she must turn in their exam at the end of the allotted exam time, whether finished or not. Example: Exam begins at 9:05am -- 50 minutes are allotted for the exam -- ALL exams must be turned in by 9:55am.

ATTENDANCE GUIDELINES

Class attendance is a very important aspect of a student's success. Being absent from class prevents students from receiving the full benefit of a course and interrupts the learning process. Southeastern Technical College considers both tardiness and leaving early as types of absenteeism. Responsibility for class attendance rests with the student. Regular and punctual attendance at all scheduled classes is required for student success. Students will be expected to complete all work required by the instructor as described in the individual course syllabus.

Instructors have the right to give unannounced quizzes/assignments. Students who miss an unannounced quiz or assignment will receive a grade of 0. Students who stop attending class, but do not formally withdraw, may receive a grade of "F" (Failing 0-59) and face financial aid repercussions in upcoming semesters.

Instructors are responsible for determining whether missed work may be made up and the content and dates for makeup work is at the discretion of the instructor.

Attendance is counted from the first scheduled class meeting of each semester. To receive credit for a course a student must attend at least 90% of the scheduled instructional time. All work missed due to tardiness or absences must be made up at the convenience of the instructor. Any student attending less than the required scheduled instructional time (90%) may be dropped from the course as stated below in the Withdrawal Procedure.

Tardy means arriving after the scheduled time for instruction to begin. Early departure means leaving before the end of the scheduled time. Three (3) tardies or early departures equal one (1) absence for the course.

For this class, which meets for a total of 7 days during the semester, the maximum number of days a student may miss is 1 day during EMSP 2140.

Students, who are more than 15 minutes late on exam dates, will not be allowed to take the exam once the exam has started. These students must schedule a time to make up the exam or a zero will be given for the exam. This time will be other than normal class hours, must be prior to the next class, and will be at the instructor's convenience. If the student is less than 15 minutes late, and the exam has started, the student may begin the exam, but he/she must turn in their exam at the end of the allotted exam time, whether finished or not. Example: Exam begins at 9:05am -- 50 minutes are allotted for the exam -- ALL exams must be turned in by 9:55am.

Students must maintain a **70%** or higher average on Chapter exams to sit for the Final exam.

Students must also maintain an **70%** or higher average on all Pretest, Homework, and Post-test assignments in order to sit for the Final Exam.

STUDENTS WITH DISABILITIES

Students with disabilities who believe that they may need accommodations in this class based on the impact of a disability are encouraged to contact the appropriate campus coordinator to request services.

Swainsboro Campus: [Emily Jarrell \(ejarrell@southeasterntech.edu\)](mailto:ejarrell@southeasterntech.edu), 478-289-2259, Building 1, Room 1210.

Vidalia Campus: [Helen Thomas \(hthomas@southeasterntech.edu\)](mailto:hthomas@southeasterntech.edu), 912-538-3126, Building A, Room 165.

SPECIFIC ABSENCES

Provisions for Instructional Time missed because of documented absences due to jury duty, military duty, court duty, or required job training will be made at the discretion of the instructor.

PREGNANCY

Southeastern Technical College does not discriminate on the basis of pregnancy. However, we can offer accommodations to students who are pregnant that need special consideration to successfully complete the course. If you think you will need accommodations due to pregnancy, please make arrangements the appropriate campus coordinator.

Swainsboro Campus: [Emily Jarrell \(ejarrell@southeasterntech.edu\)](mailto:ejarrell@southeasterntech.edu), 478-289-2259, Building 1, Room 1210.

Vidalia Campus: [Helen Thomas \(hthomas@southeasterntech.edu\)](mailto:hthomas@southeasterntech.edu), 912-538-3126, Building A, Room 165.

It is strongly encouraged that requests for consideration be made **PRIOR** to delivery and early enough in the

pregnancy to ensure that all the required documentation is secured before the absence occurs. Requests made after delivery MAY NOT be accommodated. The coordinator will contact your instructor to discuss accommodations when all required documentation has been received. The instructor will then discuss a plan with you to make up missed assignments.

WITHDRAWAL PROCEDURE

Students wishing to officially withdraw from a course(s) or all courses after the drop/add period and prior to the 65% point of the term in which student is enrolled (date will be posted on the school calendar) must speak with a Career Counselor in Student Affairs and complete a Student Withdrawal Form. A grade of "W" (Withdrawn) is assigned for the course(s) when the student completes the withdrawal form.

Important – Student-initiated withdrawals are not allowed after the 65% point. After the 65% point of the term in which the student is enrolled, the student has earned the right to a letter grade and will receive a grade for the course. Please note: Abandoning a course(s) instead of following official withdrawal procedures may result in a grade of "F" (Failing 0-59) being assigned.

Informing your instructor that you will not return to his/her course, does not satisfy the approved withdrawal procedure outlined above.

There is no refund for partial reduction of hours. Withdrawals may affect students' eligibility for financial aid for the current semester and in the future, so a student must also speak with a representative of the Financial Aid Office to determine any financial penalties that may be assessed due to the withdrawal. A grade of "W" will count in attempted hour calculations for the purpose of Financial Aid.

MAKEUP GUIDELINES (Tests, quizzes, homework, projects, etc...)

If a student misses a test, a grade of zero will be assigned. Only students with extenuating circumstances (who contact the instructor on or before the day of the test regarding their absence) will be allowed to take a makeup test, which will replace the zero. Extenuating circumstances are determined at the instructor's discretion. Unless otherwise scheduled with the instructor, it is expected that the test will be taken prior to the next class, and will be scheduled outside of regular class time. Failure to follow this procedure will result in a grade of zero.

Assignment due dates are listed on the attached lesson schedule and in MyBradyLab. Students are expected to have the assignment completed when it is due. It is within the instructor's discretion to accept or reject late assignments.

Unannounced quizzes are subject to be given on any day. A grade of zero will be assigned for any quizzes missed. There will be no makeup of quizzes.

Any zeros recorded will be included in the final score calculation.

Students must have a 70% or above average on all EMSP 2140 chapter exams to be eligible to sit for the EMSP 2140 final exam. Any student not having a 70% average or above will not be allowed to take the EMSP 2140 final exam and will not be allowed to advance to EMSP 2310.

ACADEMIC DISHONESTY POLICY

The Southeastern Technical College Academic Dishonesty Policy states that all forms of academic dishonesty, including but not limited to cheating on tests, plagiarism, collusion, and falsification of information, will call for discipline. The policy can also be found in the Southeastern Technical College Catalog and Handbook.

PROCEDURE FOR ACADEMIC MISCONDUCT

The procedure for dealing with academic misconduct and dishonesty is as follows:

1. First Offense

Student will be assigned a grade of "0" for the test or assignment. Instructor keeps a record in course/program files and notes as first offense. The instructor will notify the student's program advisor, academic dean, and the Registrar at the student's home campus. The Registrar will input the incident into Banner for tracking purposes.

2. Second Offense

Student is given a grade of "WF" (Withdrawn Failing) for the course in which offense occurs. The instructor will notify the student's program advisor, academic dean, and the Registrar at the student's home campus indicating a "WF" has been issued as a result of second offense. The Registrar will input the incident into Banner for tracking purposes.

3. Third Offense

Student is given a grade of "WF" for the course in which the offense occurs. The instructor will notify the student's program advisor, academic dean, and the Registrar at the student's home campus indicating a "WF" has been issued as a result of third offense. The Vice President for Student Affairs, or designee, will notify the student of suspension from college for a specified period of time. The Registrar will input the incident into Banner for tracking purposes.

Statement of Non-Discrimination

As set forth in the student catalog, Southeastern Technical College does not discriminate on the basis of race, color, creed, national or ethnic origin, sex, religion, disability, age, political affiliation or belief, genetic information, veteran status, or citizenship status (except in those special circumstances permitted or mandated by law).

The following individuals have been designated to handle inquiries regarding the nondiscrimination policies:

American With Disabilities Act (ADA)/Section 504 - Equity- Title IX (Students) – Office of Civil Rights (OCR) Compliance Officer	Title VI - Title IX (Employees) – Equal Employment Opportunity Commission (EEOC) Officer
Helen Thomas, Special Needs Specialist Vidalia Campus 3001 East 1 st Street, Vidalia Office 165 Phone: 912-538-3126 Email: Helen.Thomas@southeasterntech.edu	Lanie Jonas, Director of Human Resources Vidalia Campus 3001 East 1 st Street, Vidalia Office 138B Phone: 912-538-3230 Email: LJONAS@southeasterntech.edu

ACCESSIBILITY STATEMENT

Southeastern Technical College is committed to making course content accessible to individuals to comply with the requirements of Section 508 of the Rehabilitation Act of Americans with Disabilities Act (ADA). If you find a problem that prevents access, please contact the course instructor.

GRIEVANCE PROCEDURES

Grievance procedures can be found in the Catalog and Handbook located on Southeastern Technical College's website.

ACCESS TO TECHNOLOGY

Students can now access Blackboard, Remote Lab Access, Student Email, Library Databases (Galileo), and BannerWeb via the mySTC portal or by clicking the Current Students link on the [Southeastern Technical College's Website \(www.southeasterntech.edu\)](http://www.southeasterntech.edu).

TECHNICAL COLLEGE SYSTEM OF GEORGIA (TCSG) GUARANTEE/WARRANTY STATEMENT

The Technical College System of Georgia guarantees employers that graduates of State Technical Colleges shall possess skills and knowledge as prescribed by State Curriculum Standards. Should any graduate employee within two years of graduation be deemed lacking in said skills, that student shall be retrained in any State Technical College at no charge for instructional costs to either the student or the employer.

GRADING POLICY

Assessment/Assignment	Percentage
Chapter Exams	40 %
Homework Assignments/Quizzes	15 %
Affective Learning	5 %
Final Exam	40 %
Total	100%

GRADING SCALE

Letter Grade	Range
A	90-100
B	80-89
C	70-79
D	60-69
F	0-59

(All Practical competencies must be passed to complete the course.)
