

Logging into Blackboard for Online Courses

Blackboard Courses are not available to students early. Courses requiring the use of Blackboard will be available on the first day of the semester. If you register late, it takes 24 hours before your account will be available.

To access Blackboard:

- Please access the internet using one of the recommended browsers for Blackboard. Mozilla Firefox or Google Chrome are two of the browsers recommended. When experiencing issues using Blackboard, a change in the browser often fixes the problem.
- Go to the www.southeasterntech.edu college website and click on the mySTC tab at the top of the page. Login to mySTC with your 9XXXXXXXX Student ID number as the username and your 6-digit Bannerweb Pin# as the password. The mySTC password is usually your 6-digit birthdate.
- Once mySTC is open, click on the Blackboard Icon.
- If automatic access to Blackboard is not granted, enter **43_9XXXXXXXX** as your **username** **and** enter the same **43_9XXXXXXXX** as your **password**. (Students who attended last semester may have changed their password and should use the same password as last semester.)
- New students will see a black overlay welcoming you to blackboard the first time you log in. Go past this screen to see your course listing and other information on the homepage.
- You may change your password by finding the Personal Information link on the homepage of Blackboard. We recommend that you use your banner web pin #.
- We also recommend that you run the Browser Check located on the Blackboard Homepage on your personal computer to identify programs you may need to install.
- For questions, your best first contact is your instructor.
- Please enter each online class you are taking on Day 1, and begin the process of meeting the no show requirements. Students taking hybrid or web-enhanced classes may have different requirements. Attending class and checking college email on Day 1 is of most importance.
