- Goals** - Inside of Blackboard Learn State Standards are called **Goals**. To save time, it's best to associate the goals in the system to a particular course to avoid filtering through all programs when you want to align standards to content.
 - Find your **Goals** Course Tool in your Course Tools list. Remember, this is in the lower **Course Management** area of your left menu.
 - Click on **Goals** to begin the association.
- Associate Goals to Course**
 - Click the **Add Association Button**
 - Search for your Program and click on the name, a secondary pop up will appear listing all of the courses for this program.
 - Choose the Course you want to associate and click submit.

Note: There may be a delay after you associate your course goals.

If you do not see your goals in Steps 3 and 4, wait a while and try again.
