Qwickly
PLUS

Simplify Managing Multiple Courses and Organizations

Qwickly Plus increases the efficiency of communicating with members of multiple courses and organizations as well as simplifying tasks that need to be done repetitively in each course an instructor teaches. Qwickly Plus allows you to add documents, create assignments, post web links, send emails, post announcements and more to multiple blackboard courses and organizations in a single module.

FEATURES:

Communication
Send emails with attachments and post announcements with start and end dates to multiple courses and organizations.

Course Availability
Control course availability for all courses taught in one place and make all courses available to students within seconds.

Content Management
Instructors can add documents and web links in multiple courses to existing or newly created content areas. The same assignment can be created and deployed across multiple courses.

Submit Assignment
Students can submit assignments for all courses in one unified submission hub without opening the course. When combined with Qwickly Plus Cloud, students can even submit assignments stored in the cloud.

Student Email Tools
Students can send emails to instructors, and group members of multiple courses and organizations.

Qwickly Inc.

Founded in 2013, Qwickly, Inc. is an educational software company that specializes in user experience enhancements to learning management systems. Based in Cleveland, Ohio, Qwickly creates user-centric software solutions for clients around the world.

Qwickly has been a Blackboard partner since 2013, received an award from the Burton D. Morgan Foundation and is a Flashstarts accelerator company. Flashstarts is the agile startup accelerator focused on unique and innovation uses of software and technology.

QWICKLY PRODUCTS

- Qwickly+
- Qwickly+Cloud
- Qwickly Attendance

Qwickly also provides custom building block development, including feature enhancements to its own products.

Qwickly products are compatible with self-hosted, Blackboard managed, and SaaS versions of Blackboard.

QWICKLY BUILDING BLOCK

The Qwickly Building Block for Blackboard Learn provides a micro-platform that increases the efficiency of communicating with members of and managing content in multiple courses and organizations, as well as simplifying tasks that need to be done repetitively in each course an instructor teaches. This platform also creates a connection between popular cloud storage services and Blackboard Learn, which allows posting documents and submitting assignments from the cloud. Qwickly's Attendance tool enables faculty to track attendance that is automatically graded in the Blackboard Grade Center using an attendance list or allowing students to check in.

Qwickly Inc. is a licensed developer for Blackboard, Google, Dropbox, Box, and Microsoft.

Qwickly is used by

500+

schools worldwide.

Schools across the world have deployed Qwickly in their Blackboard Learn environment, allowing their users to do repetitive tasks more efficiently, and with greater ease.

QWICKLY PLUS PRICING
