

Okta Quick Start Guide

This guide is designed to step you through the initial setup of the Okta application on your devices for secure access and single sign-on (SSO) functionality.

Click the link on MYSTC or <https://southeasterntech.okta.com/> to access the Okta landing page. Your Office 365 (O365) username and password will grant you access to begin the process.

<username> is your STC Email Address, yourstudentidnumber@students.southeasterntech.edu.

Example: 9100XXXX@students.southeasterntech.edu

Enter your password and click the Sign In button. Unless you have changed your password, your password should be the initial password sent to you by the Admissions office.

On the set up multifactor authentication page, setup at least one item preferably all three. To setup the Okta Verify or SMS Authentication, you will need your cell phone. Once you click on Setup, follow the instructions given to set up that authentication option.

When complete, you will be taken to the Okta landing page and you will be able to access the resources listed on your screen.
